CustomView

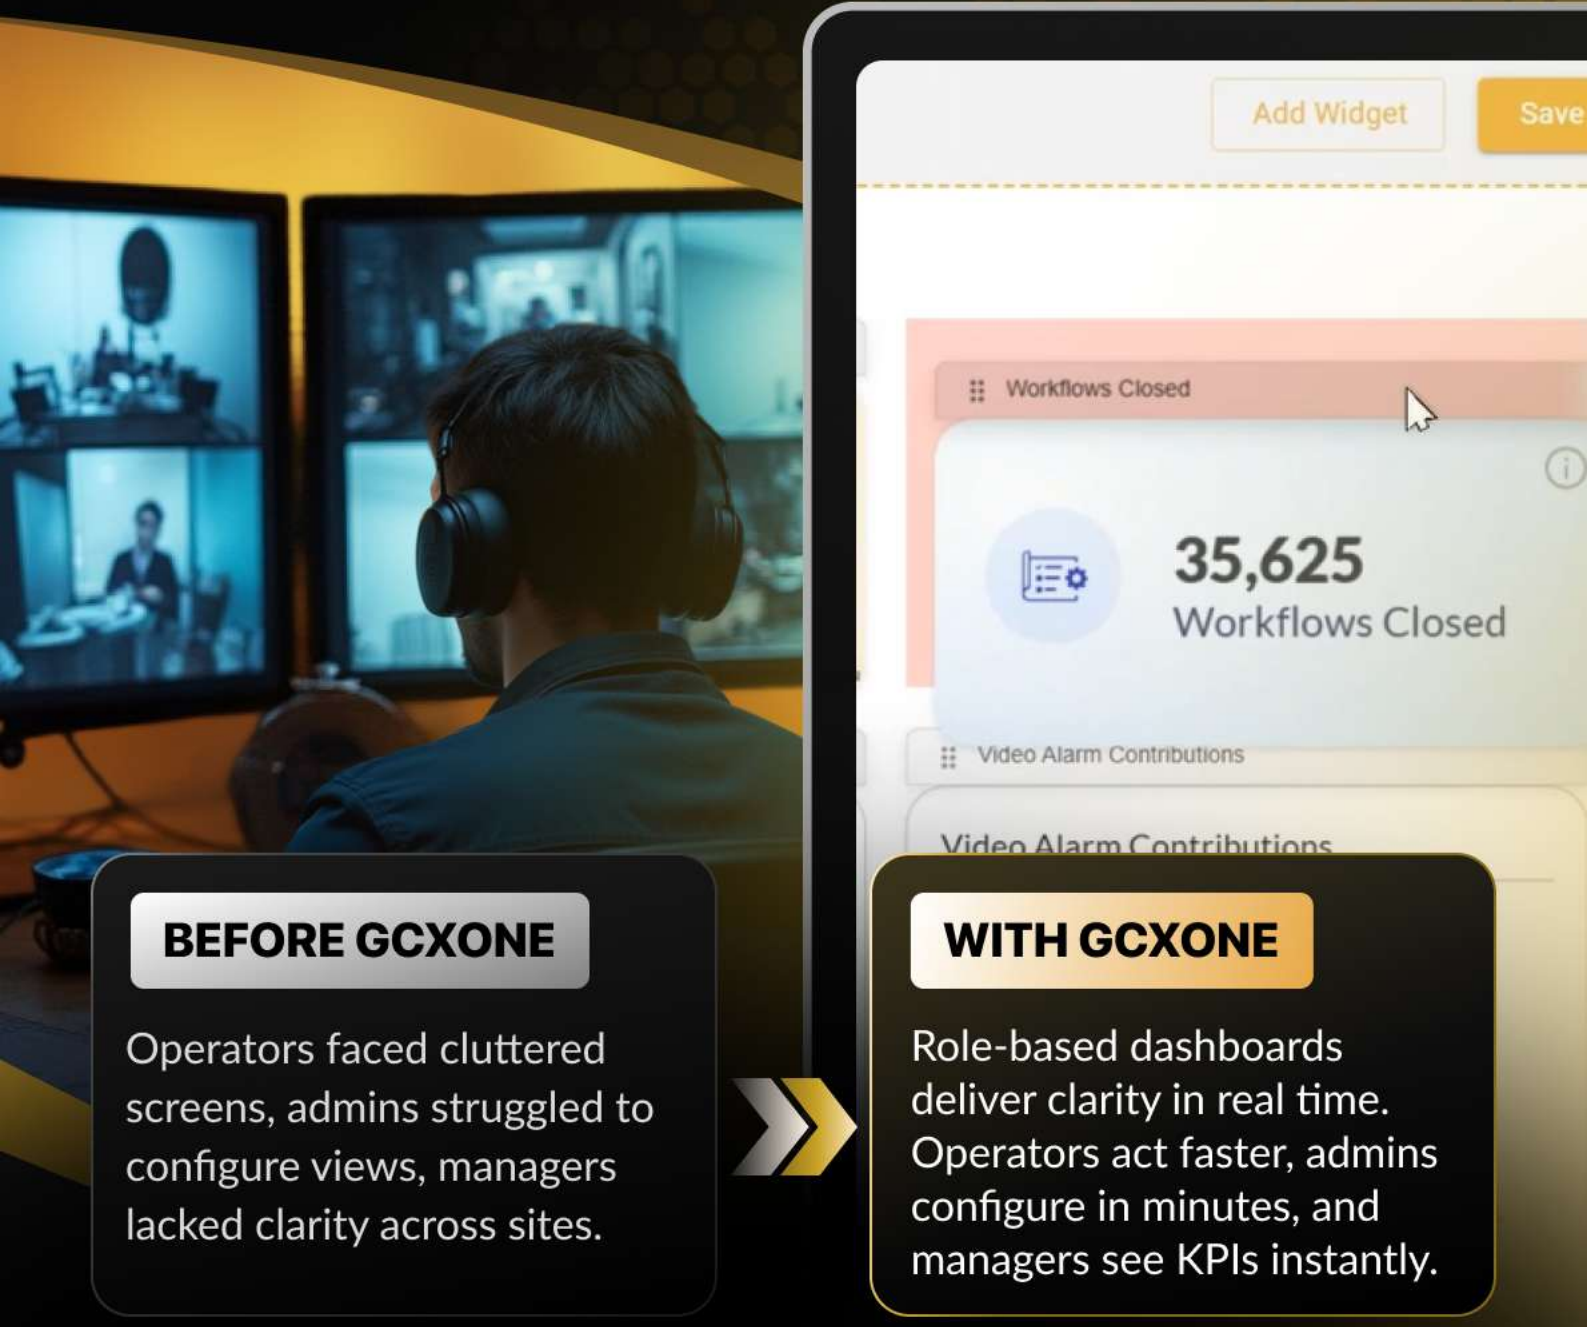
Real-time Insights; Deliver the Right Data, Exactly When You Need It



BEFORE GCXONE

Operators faced cluttered screens, admins struggled to configure views, managers lacked clarity across sites.

WITH GCXONE

Role-based dashboards deliver clarity in real time. Operators act faster, admins configure in minutes, and managers see KPIs instantly.

A Game Changer

CustomView puts every role in control with a crystal-clear perspective. By delivering 100% trusted visuals and zero blind spots, it empowers operators to react with confidence and administrators to validate every review. For tower teams, it's real-time visibility that leaves nothing hidden, while General Managers and Sales leaders gain a complete picture of performance across sites. With CustomView, decisions aren't just faster — they're smarter, creating new opportunities for growth.

See Clearly. Act Decisively.

By reducing reporting time and surfacing the right data faster, **Custom**View can save up to 4 man-hours per day across your organization.

It empowers faster, more informed decisions, streamlines collaboration between teams, and drives efficiency at every level. When you can see what matters, you can act with confidence.

KEY FEATURES

- Customizable dashboards
- Cuts reporting time by simplifying operational data
- Speed up and improves decision making across teams
- Saves up to 4 hours per day

Powering Your Success

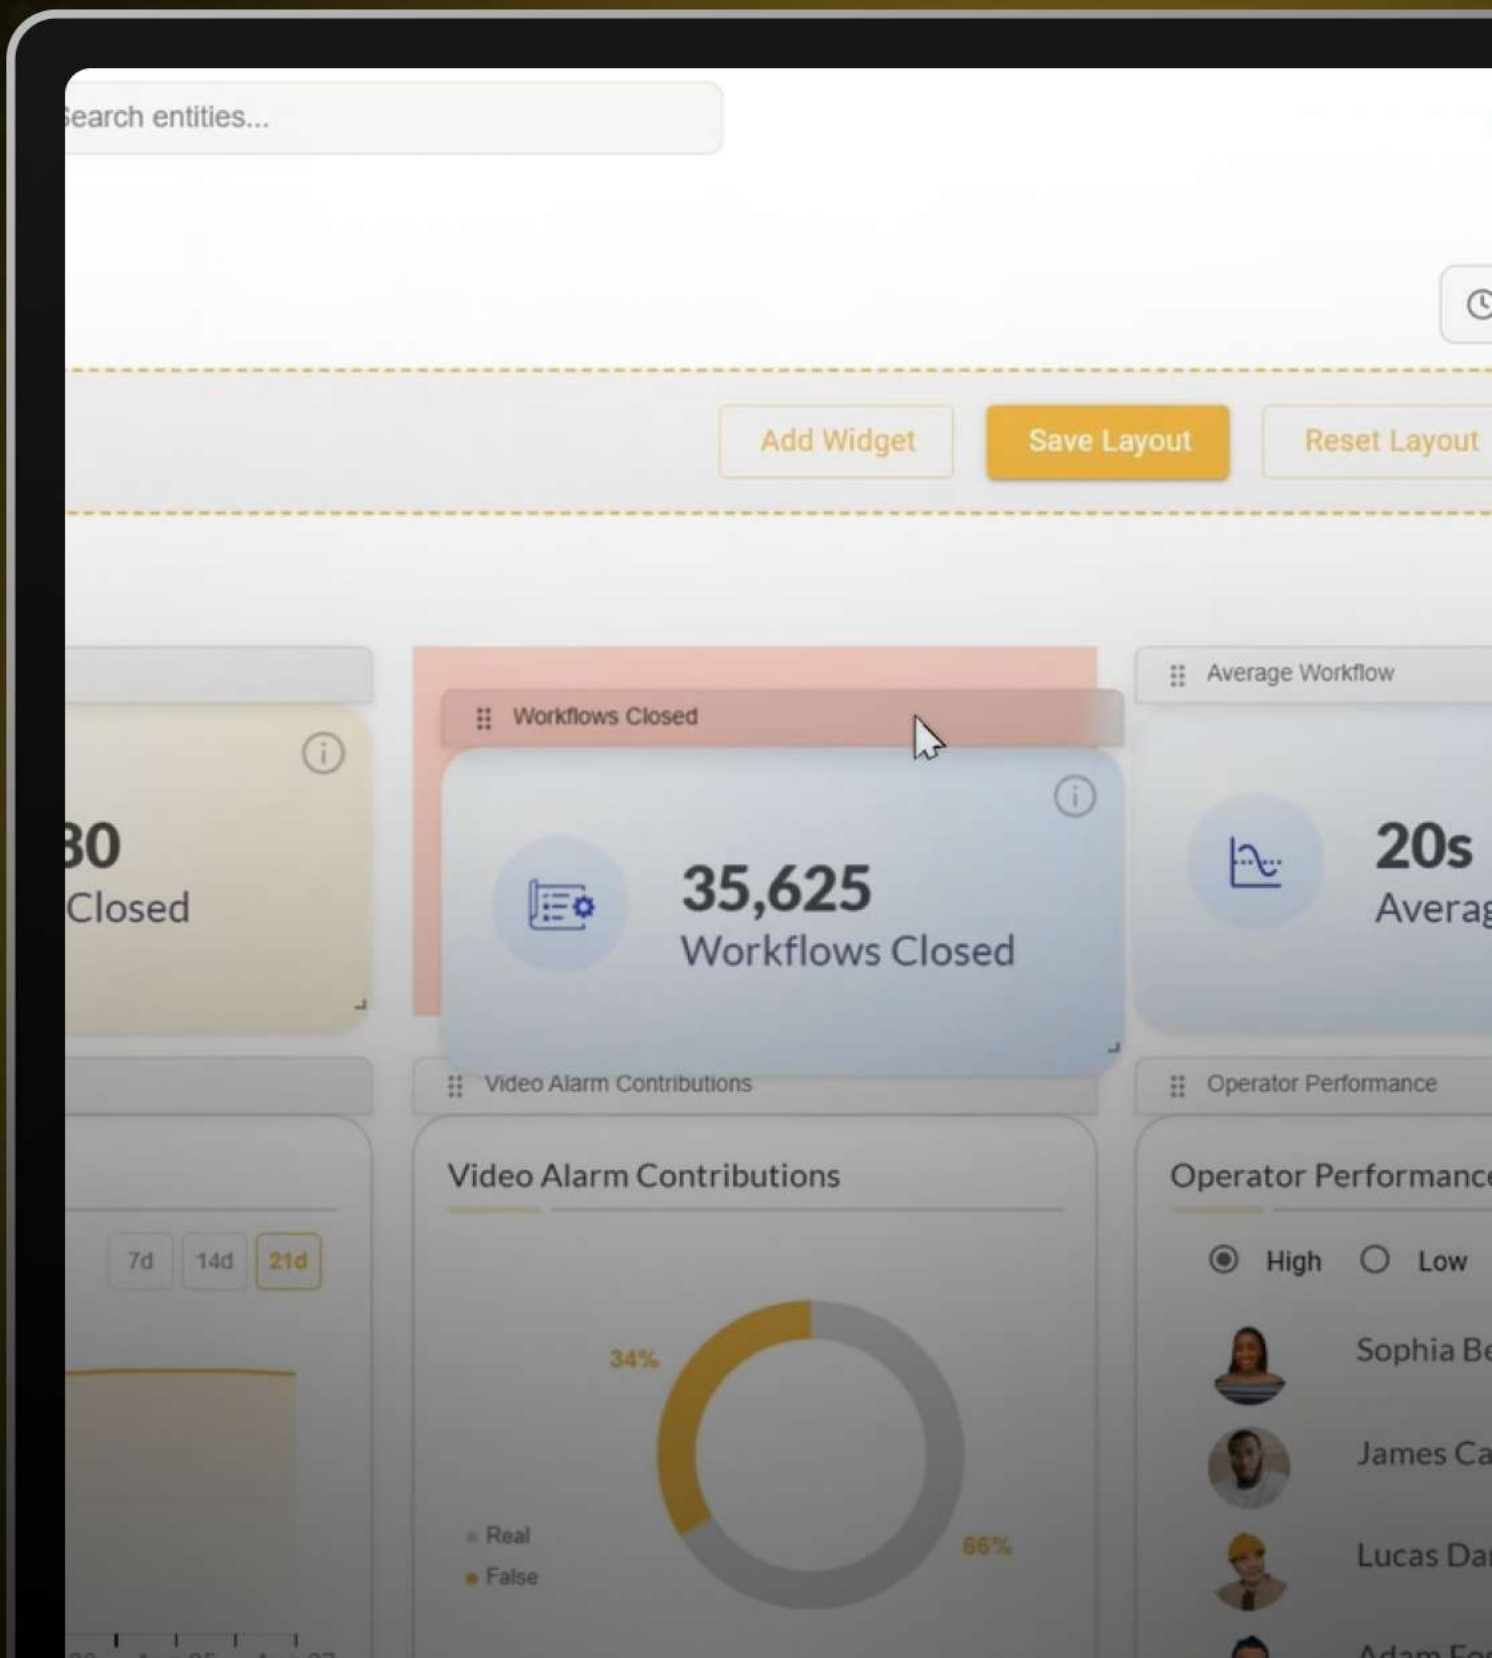
40% MORE IDENTIFICATION ACCURACY

CustomView

MANAGE **1000s** OF SITES EFFORTLESSLY

The Breakthrough

CustomView turns complexity into clarity. Its role-specific dashboards improve accuracy by up to 40%, giving operators sharper alarm reviews and IT teams fewer disputes to resolve. Administrators can manage thousands of billable sites with clarity, while leadership benefits from converting insights directly into margin. Whether it's validating compliance, scaling revenue, or sharpening incident response, **Custom**View delivers measurable impact across every layer of the business.



CustomView + **Genie**: Insight in Action

Genie + **Custom**View put insight into action. **Genie** adapts views automatically while **Custom**View delivers tailored dashboards, ensuring operators stay focused, admins work smarter, and managers make faster decisions.

How can **Custom**View help in managing multiple sites effectively?

With **Custom**View, administrators can effortlessly oversee thousands of sites. Role-based views significantly reduce time spent on management tasks, saving hours each week and allowing teams to focus on what truly matters.
