BulkImport

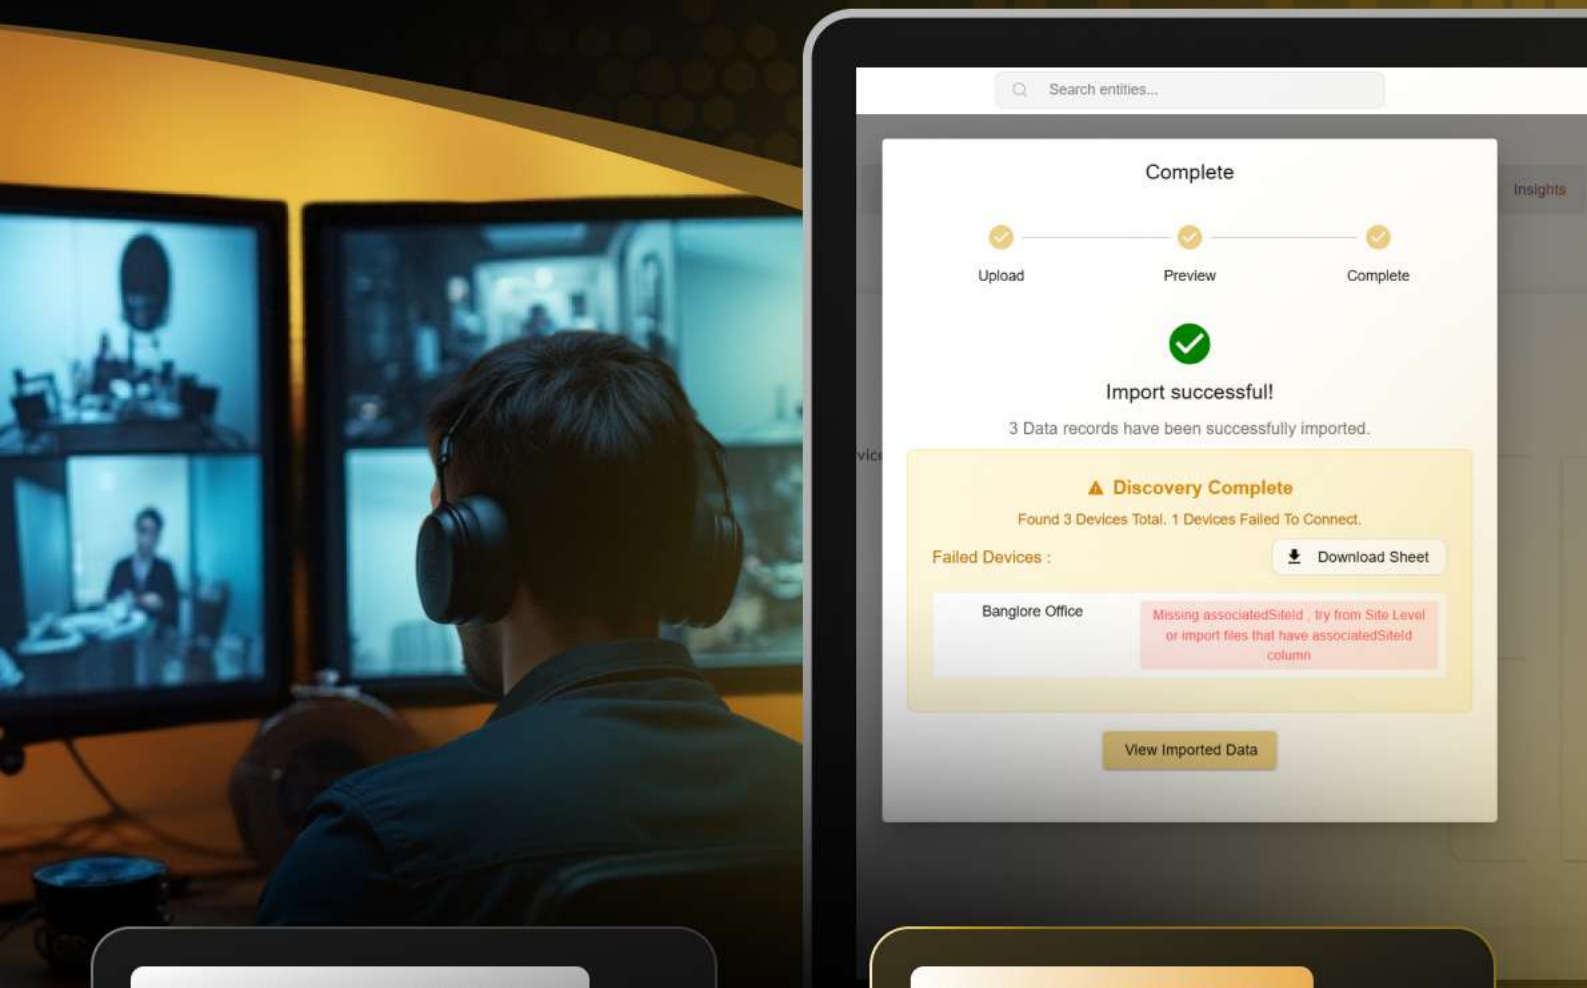
Onboard 5× Faster; Scale Without Extra Staff



BEFORE GCXONE

Manual setup took 8–10 minutes per site, slowing teams down and blocking scalable growth.

WITH GCXONE

Onboarding is 5× faster and fully automated. Teams manage 130+ more sites each month without adding staff or manual work.

A Game Changer

BulkImport transforms onboarding from a bottleneck into a growth engine. By onboarding sites 5× faster without manual configuration, it empowers operators to handle more locations, administrators to scale billing with ease, and General Managers to expand coverage without expanding headcount. For installers, it's smoother handoffs; for IT, it's fewer headaches — and for leadership, it's pure acceleration.

Accelerate Onboarding. Multiply Impact.

With this boost in efficiency, your existing team can now onboard over 130 additional sites each month without added resources. **Bulk**Import eliminates bottlenecks, shortens time-to-value, and empowers your staff to handle rapid growth effortlessly.

KEY FEATURES

- Config + onboarding in ~2 min/site (4-5x faster)
- 1 vs 200 minutes for 40 cameras
- Adds 132+ sites/month with the same staff

Powering Your Success

BulkImport

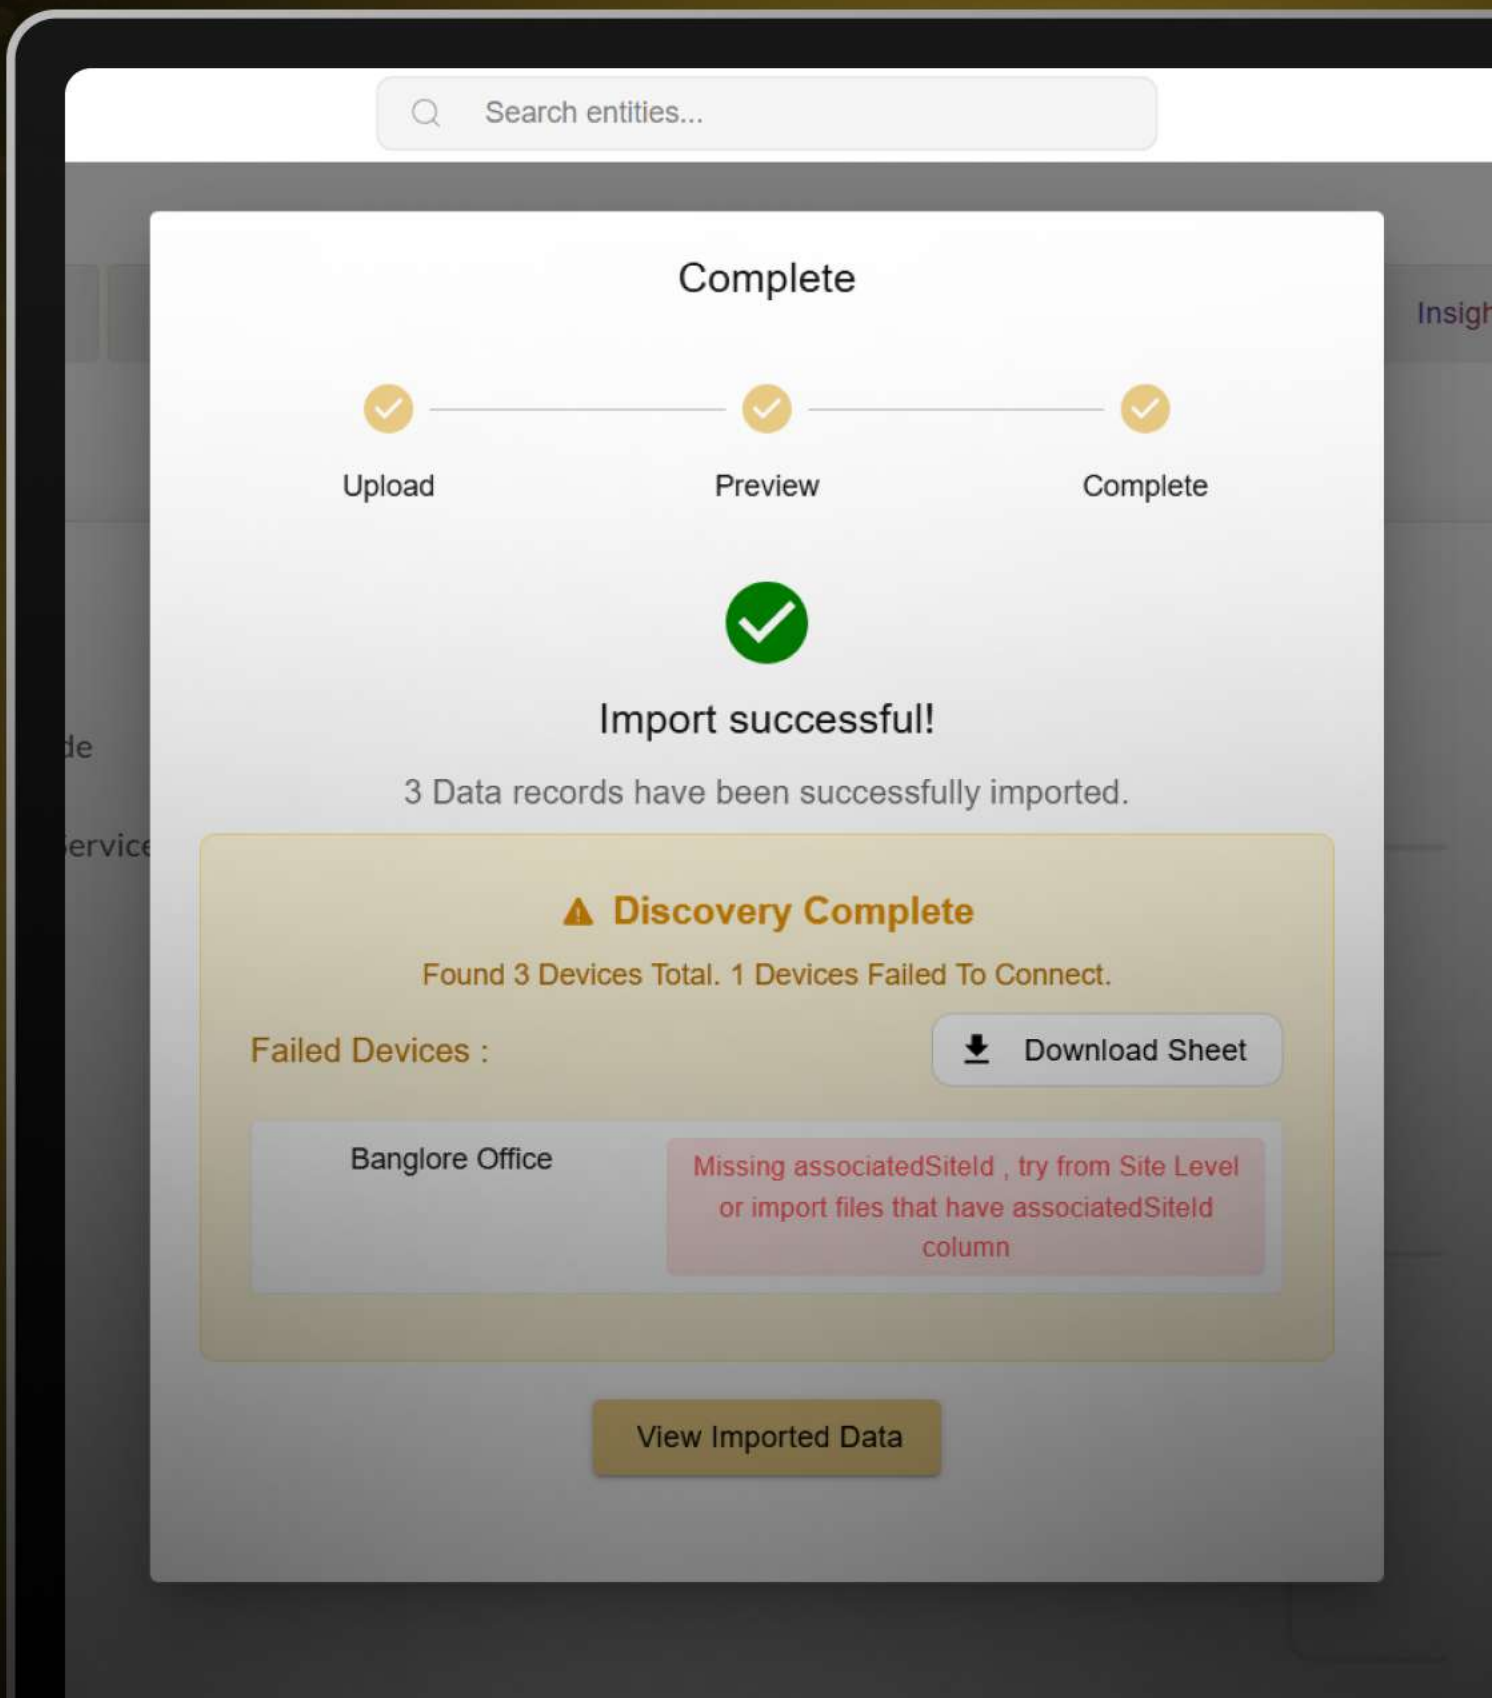
NEW SITE UP TO **5X** FASTER

NEW SITE UP TO **130** ADDITIONAL SITES PER MONTH

GO LIVE IN AS LITTLE AS **5** MINUTES

The Breakthrough

With **Bulk**Import, one team can manage 130+ additional sites per month without added staff. IT eliminates repetitive setup tasks, administrators skip manual spreadsheets, and operators gain immediate access to fully configured sites. Installers save days per project, and leadership gains a clear path to scaling operations while keeping costs flat. **Bulk**Import proves that speed doesn't mean compromise — it means multiplying capacity.



BulkImport + **Genie**: Seamless at Scale

When paired with Genie, **Bulk**Import becomes effortless scaling. Genie auto-fixes recurring setup issues and streamlines troubleshooting, while **Bulk**Import rapidly configures every site. Together, they reduce revisits, cut IT tickets, and deliver complete, ready-to-run systems in record time. For managers, that means onboarding without limits — scaling fleets smoothly, securely, and sustainably.

How quickly can we expect to onboard new sites using **Bulk**Import?

Customers typically onboard new sites five times faster with **Bulk**Import, without needing extra staff or devices. It automatically discovers cameras at scale and provides instant failure reports, making troubleshooting during import a breeze. This means installers can scale their operations without feeling overwhelmed.
