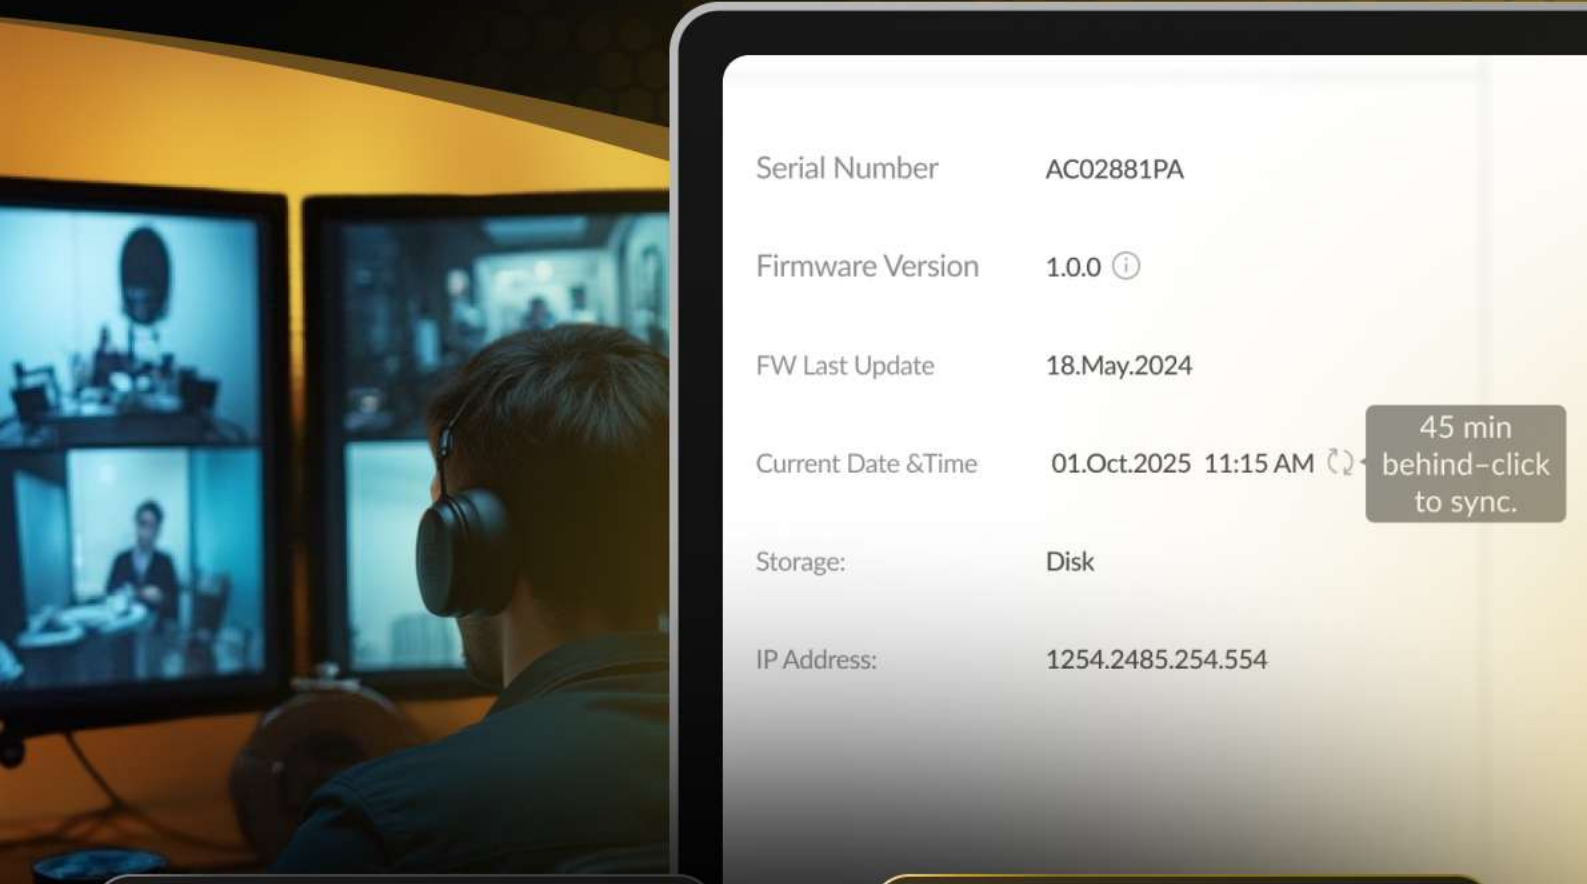
# **Time**Sync

Synchronise Multi-Camera Evidence; Perfectly Timed Frames You Can Trust



**BEFORE GCXONE**

Device time mismatches caused footage delays and misalignment, slowing investigations and risking unusable evidence.

**WITH GCXONE**

Every camera and alarm shares a single, accurate timeline — producing tamper-proof, legally defensible records.

## A Game Changer

**Time**Sync eliminates one of security's biggest hidden risks — misaligned data. By ensuring 100% synchronization across every device, it removes timestamp disputes, blind spots, and delays that derail investigations. Operators gain a clear timeline of events, administrators avoid compliance headaches, and General Managers see investigations closed faster, every time. With **Time**Sync, every camera, alarm, and log speaks the same language.

# Trust the Timestamps. Protect the Bottom Line.

With up to 2,400 hours saved per year and labor cost reductions of €6,000–€24,000, **Time**Sync delivers real operational efficiency.

More importantly, it helps mitigate legal risks, with potential savings of €10,000–€100,000 annually. In total, organizations can save between €16,000 and €124,000 a year — all by making sure every second counts.

## KEY FEATURE

- Ensures exact time sync across devices; speeds investigations; guarantees trusted evidence.
- Time savings: 600–2,400 hours/year
- Labor cost reduction: €6,000–€24,000/year
- Legal risk mitigation: Potential savings of €10,000–€100,000/year
- Total potential savings: €16,000–€124,000/year

## Powering Your Success

**100%** SYNC ACROSS ALL DEVICES

REDUCE INVESTIGATION TIME BY UP TO **80%**

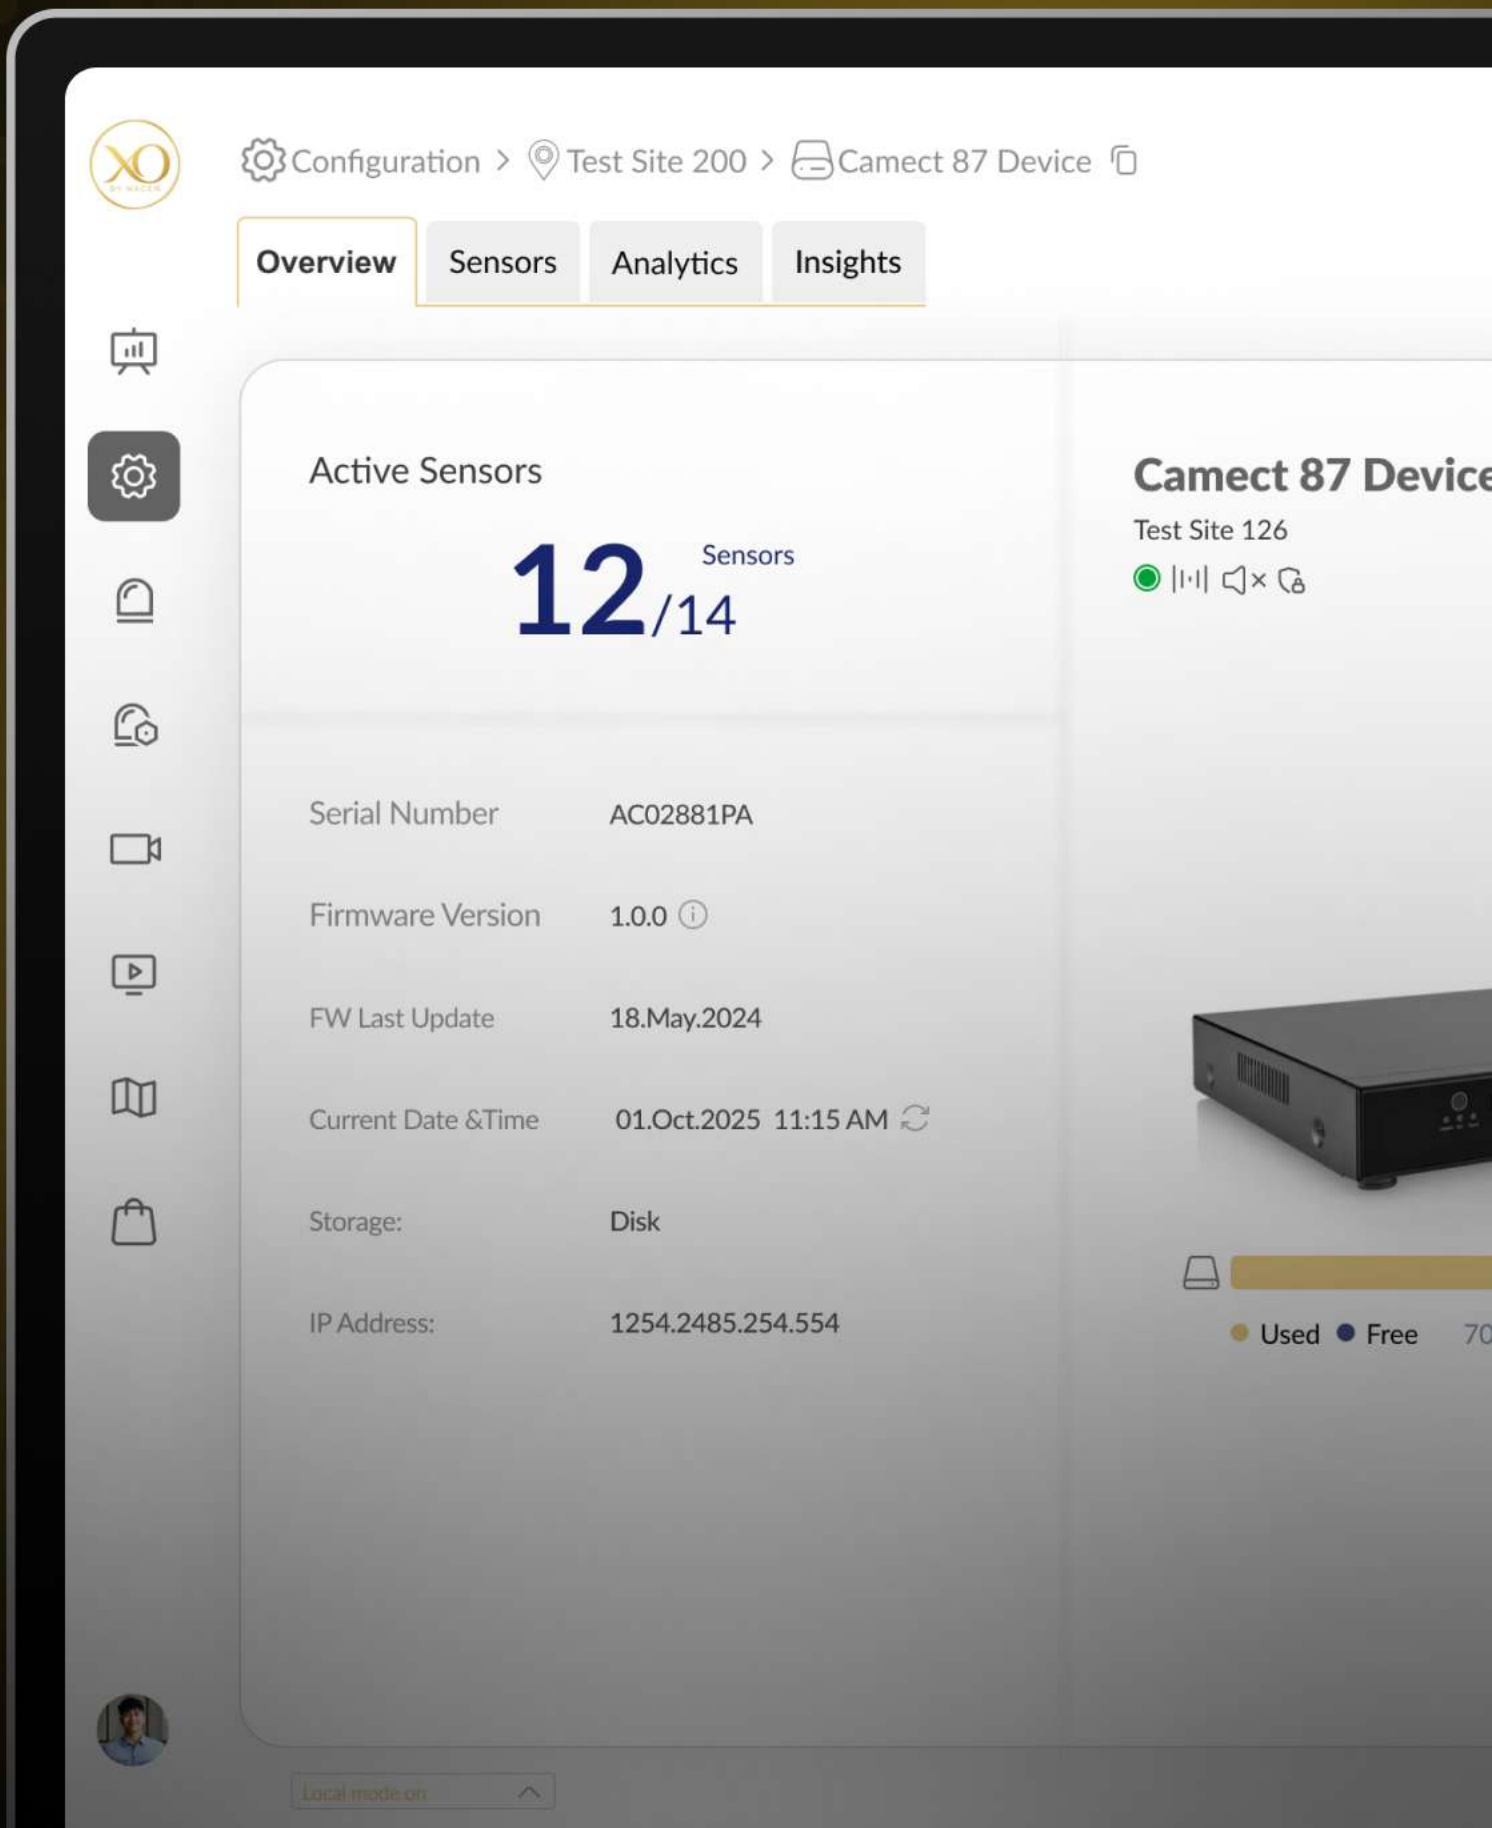
# The Breakthrough

**Time**Sync eliminates drift and locks every event to one verified timeline. Operators act with confidence, admins trust the record, IT avoids disputes, and managers know evidence will stand in court.



# **Time**Sync + **Genie**: In Perfect Sync

**Genie** auto-resolves sync issues while **Time**Sync secures a flawless timeline. Operators gain clarity, IT avoids tickets, and leadership trusts every record.

How does **Time**Sync facilitate quicker tower installations?

**Time**Sync allows teams to install towers three times faster with the same crew. This results in minimized downtime and increased coverage, all without extra labor costs.
