TowerGuard

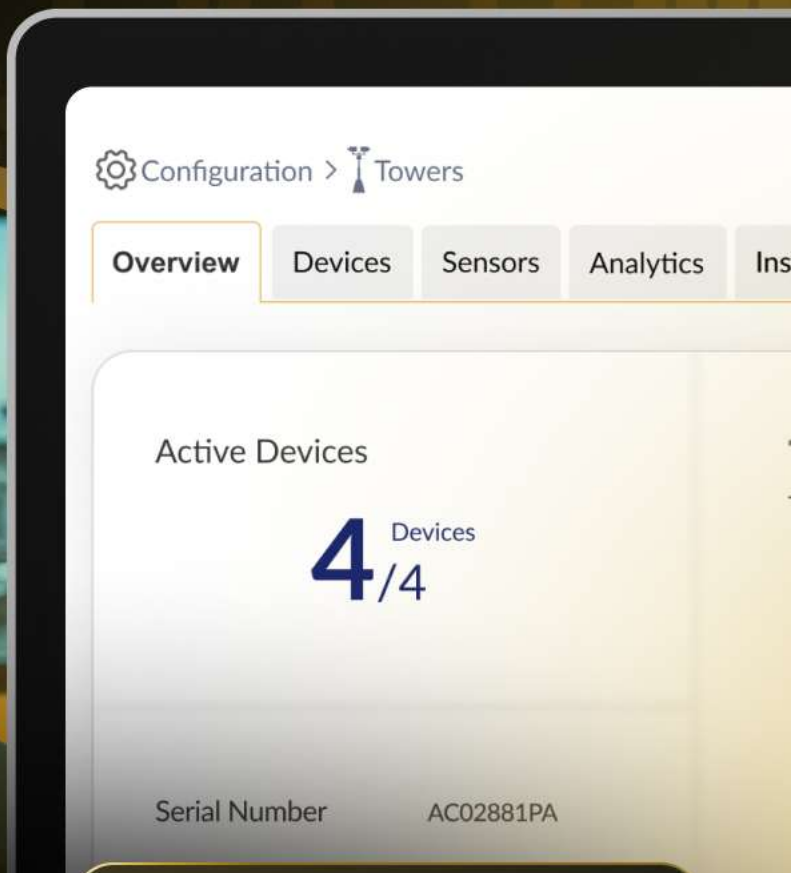
Deploy towers 3x Faster Achieve Full Protection in Record Time



HOW IT WAS BEFORE

Tower deployments cause 1-day delays and €1K–€2K extra costs due to complex setup, high maintenance, and monitoring challenges.

THE NEW WAY

Sites are secured 3× faster, installs are simplified, and coverage scales without extra overhead.

A Game Changer

TowerGuard transforms tower deployments from complex projects into seamless launches. With plug-and-play functionality, it cuts 1–2 days off every install and accelerates go-live by 3×, ensuring operators, administrators, and General Managers see value from day one. For installers, it means faster handoffs; for tower operators, instant access to live stats; and for leadership, a more agile, revenue-ready deployment

Install Faster. Monitor Smarter.

Beyond speed, **Tower**Guard delivers real savings — cutting installation costs by €2,000 to €7,000 per site. It also unlocks sensor-level monitoring, giving you deeper insights and more precise control over your environment.

With **Tower**Guard, you get faster installations, lower costs, and a smarter surveillance foundation.

KEY FEATURES

- Installation time reducee by 2–3 days.
- Surveillance installation would get cheaper by €2k–€7k per site.
- Enables sensor level monitoring.

Powering Your Success

3x FASTER TOWER DEPLOYMENT

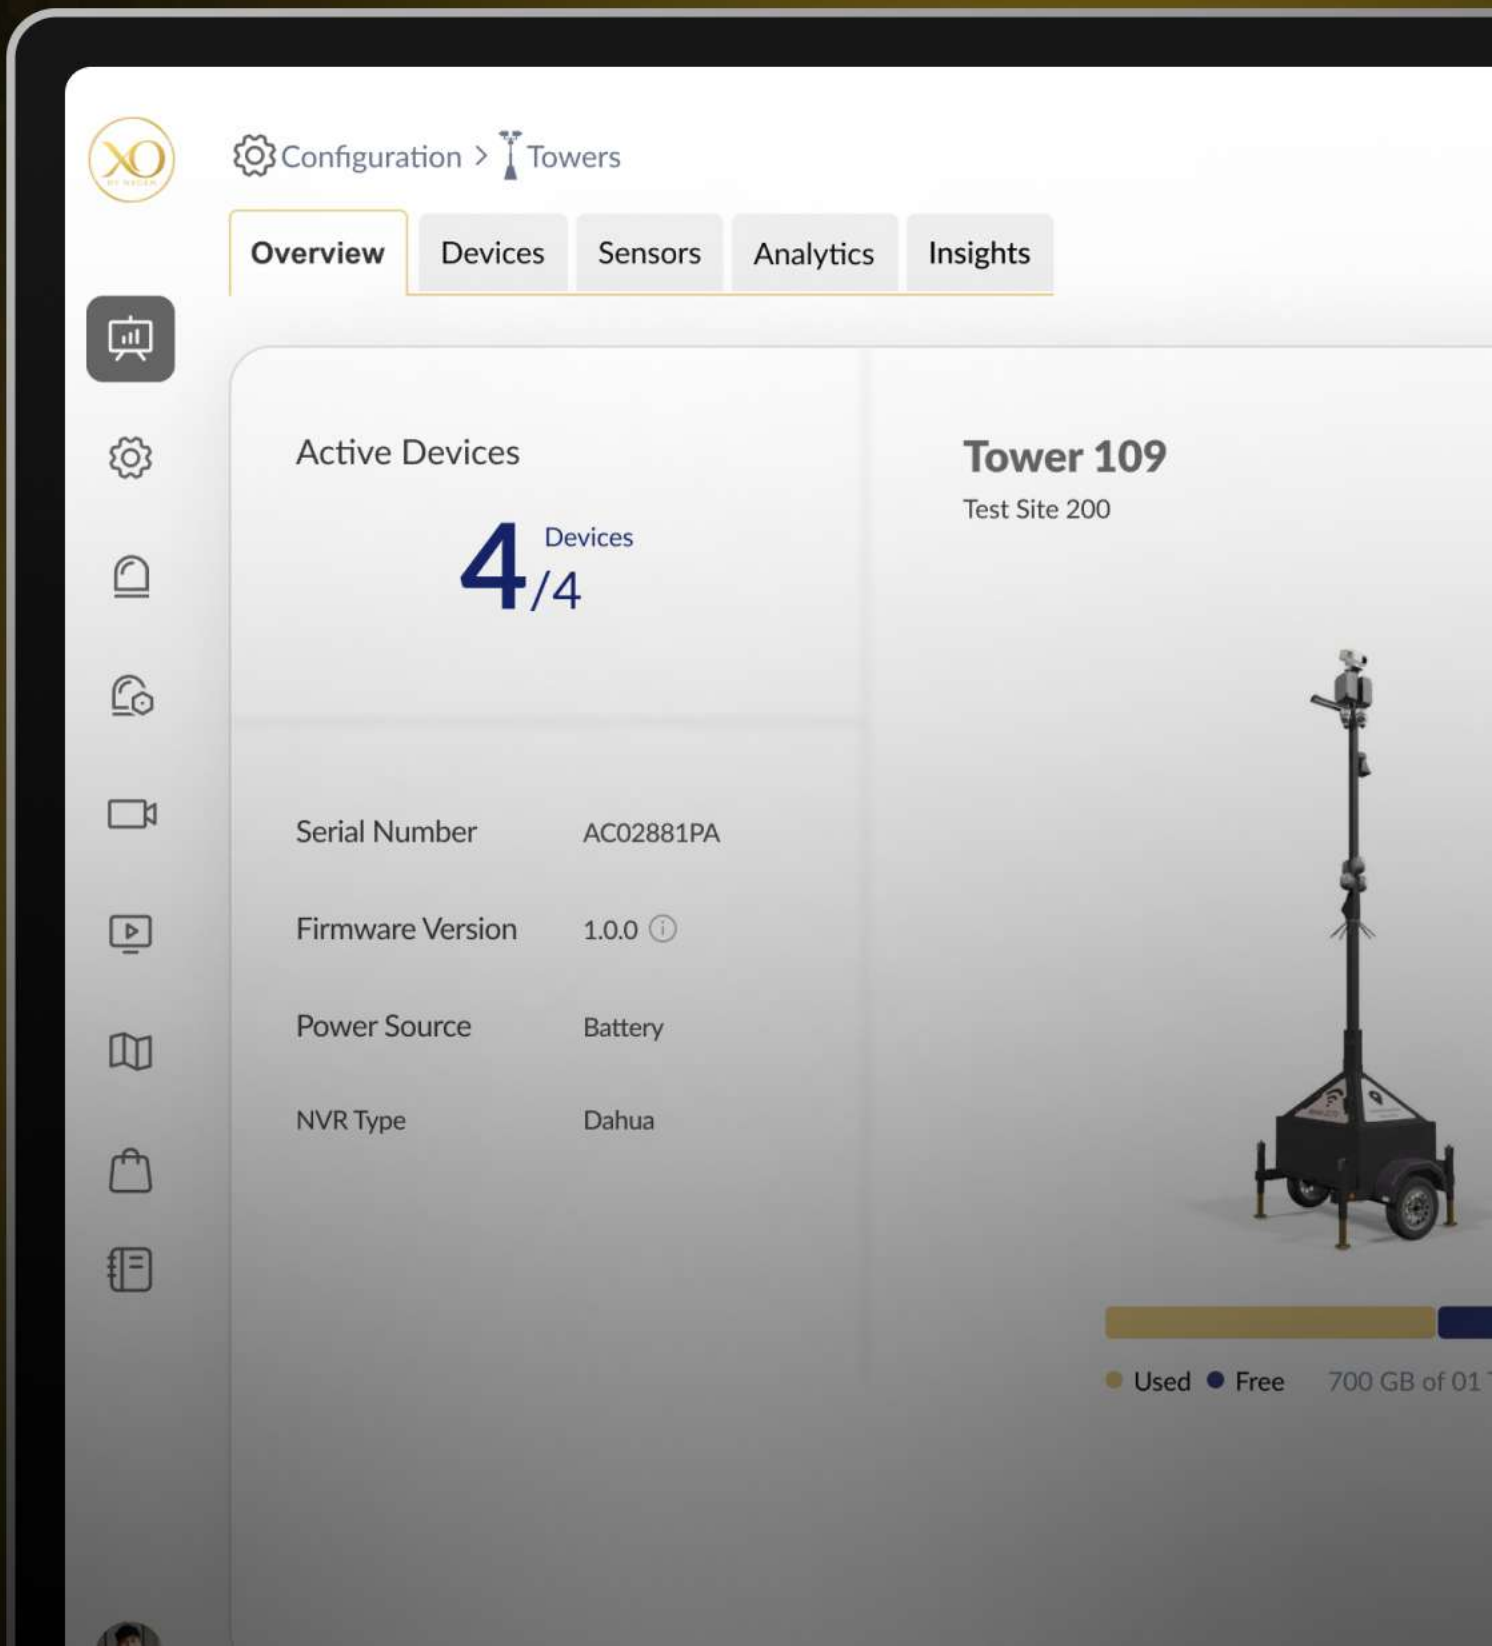
TowerGuard

UP TO **2** DAYS SAVED PER SITE INSTALL

PLUG 'N PLAY DEPLOYMENT IN MINUTES

The Breakthrough

TowerGuard delivers measurable time and cost savings across the board. By eliminating manual setup and providing a real-time digital twin view, it reduces installation delays and strengthens visibility for operators monitoring multiple sites. Administrators gain confidence with accurate status updates, IT reduces troubleshooting during onboarding, and leadership accelerates site expansion without the bottlenecks. With **Tower**Guard, deployment moves from days to hours — proof that speed and precision can go hand in hand.



TowerGuard + **Genie**: Smarter Watch, Faster Action

Genie and **Tower**Guard ensure every site comes online smoothly. **Genie** resolves setup snags as **Tower**Guard delivers 3× faster installs, giving operators immediate visibility, IT fewer tickets, and managers faster time-to-value.

How does **Tower**Guard facilitate quicker tower deployments?

With **Tower**Guard, teams can deploy towers three times faster without increasing labor costs. What used to take significant time now results in less downtime and greater coverage, enhancing overall efficiency.
